To Whom It May Concern,

We have experienced great service and results since we started using JH Cleaning Services for our window cleaning.

Jamie and the team have been very thorough in listening to our needs and responding to our requirements, even at short notice, and we have really appreciated their flexibility and patience.

The results have been a great improvement on any thing that we have received from other companies in the past with many of team members commenting on the quality and thoroughness of the cleaning.

I would recommend using JH Cleaning and appreciate their competence and reliability.

Yours sincerely,

Katherine Cullis

Facilities Supervisor
